

FLORASSIST® GI with Phage Technology

Comprehensive formula for gastrointestinal health support

30 liquid vegetarian capsules

Item Catalog Number: 02125

Probiotics help balance the ratio of good-to-bad bacteria in your intestine. But there's never been a probiotic supplement that helps tilt those scales in your body's favor ... until now. FLORASSIST® GI's dual-action formulation contains both a proprietary probiotic blend and a TetraPhage Blend that affects only *undesirable* bacteria, while leaving the "good" bacteria of your digestive system alone. Switch to FLORASSIST® GI with Phage Technology today!

Better Nutrition 2017 Best of Supplements Award Winner

Benefits at a Glance:

- Unique TetraPhage Blend affects unwanted bacteria
- Probiotic blend with 15 billion CFU (colony forming units)
- Supports growth of proven probiotic bacteria
- Promotes optimal digestion and stomach health

Dual-action approach to balancing the microbiome

Our "microbiome" is made up of all the bacteria in our digestive systems. But the favorable or "good" probiotics are under siege from dietary and environmental changes introduced in the past century, as well as other factors. As a result, our microbiomes are becoming affected ¹⁻³

Fortunately, studies show that shifting our microbiomes toward a healthy profile can have a positive impact on overall health and well-being.³ FLORASSIST® GI does this with two important blends: a TetraPhage Blend of four unique bacteriophages, and a proprietary probiotic blend.

TetraPhage and proprietary probiotic blends

A bacteriophage is a microscopic bundle of DNA or RNA encased in a protein envelope — each one is designed to attach to a unique strain of unwanted bacteria in the intestines. The TetraPhage Blend in FLORASSIST® GI only targets specific strains known to inhibit beneficial bacteria.

Plus, FLORASSIST® GI features a unique dual-encapsulation delivery system which safely bypasses the harsh environs of your stomach to deliver 15 billion CFU (colony forming units). And with the *unwanted* organisms out of the way, these probiotics get the opportunity to thrive, amplifying their effect.⁴

This comprehensive formula offers a unique, safe, and entirely natural approach to restore the microbiome to a healthy balanced state.⁵ Choose FLORASSIST® GI with Phage Technology to support your gastrointestinal health today!

Supplement Facts

Serving Size 1 liquid vegetarian capsule

Amount Per Serving

Proprietary Probiotic Blend

15 Billion CFU†

Lactobacillus acidophilus La-14; *Bifidobacterium lactis* Bl-04; *L. paracasei* Lpc-37; *L. rhamnosus* Lr-32; *B. bifidum/lactis* Bb-02; *B. longum* Bl-05
